

Dual Channel SuperSpeed USB 3.0 PCI Express Card with mini 4-pin power connector

Highlights:

- Fully compliant with one-lane (x1) PCI Express 2.0 specification
- Two (2) external 5Gbps SuperSpeed USB 3.0 ports
- SuperSpeed USB 3.0 offers 10 times performance increase over Hi-Speed USB 2.0¹
- Up to 5Gbps maximum transfer rate¹
- SuperSpeed USB 3.0 is backwards compatible with USB 1.0/1.1/2.0 devices
- Built-in with mini 4-pin power connector for added power source to better support power hungry bus-powered devices
- Fully Plug-N-Play and Hot Swap compatible

PC Requirements:

- PC with 512MB of RAM and 1.0GHz or faster processor
- One (1) available PCI Express slot
- Windows® XP/Server 2003/Vista/Server 2008/Windows 7¹

Specifications:

- Fully compliant with one-lane (x1) PCI Express 2.0 specification
- Two (2) external 5Gbps SuperSpeed USB 3.0 ports
- SuperSpeed USB 3.0 offers 10 times performance increase over Hi-Speed USB 2.0¹
- USB 3.0 complies with Intel eXtensible Host Controller Interface (xHCI)
- Up to 5Gbps maximum transfer rate¹
- SuperSpeed USB 3.0 is backwards compatible with USB 1.0/1.1/2.0 devices (data transfer rate at 1.5/12/480Mbps)
- SuperSpeed USB 3.0 is fully compatible with original USB system, peripherals and cables
- Ideal connection for digital cameras, scanners, printers, external CD/DVD/Blu-Ray writers, hard disk drives, flash memory drives and etc.
- Built-in with mini 4-pin power connector for added power source to better support power hungry bus-powered devices
- Fully Plug-N-Play and Hot Swap compatible

Package contents:

- One (1) PCI Express card
- Software drivers CD
- User manual

Order Number: IO-PEU231
